Subject: Re-examination of ~60 supplemental materials
Attachments: Distillersr-Ethylene_Oxide_2019_2019-09-10-01-28-31 supp_YL910.xlsx

Here is the Excel from re-examination of ~60 supplemental materials.

There are about 8 articles about allergic responses from exposure to residual EtO in medical equipment, thus I put all of them into “non-inhalation exposure” for consistency.

Some of them has more than subjects – thus, they are not assigned to “case report”

Red color – new addition

Blue color – comments as to why it is categorized

Cross out (e.g., ~~mechanical~~) – deleted old entry

Yellow highlight – need your judgement/input (e.g., 2019 Farland paper)

Ex. 5 Deliberative Process (DP)

Subject: supp conflicts

Can you resolve these please?

There are only a few
